

# Introducing Strike Teams: Ready to Serve, Ready to Go

## A New Nazarene Mission Teams Initiative for Rapid-Response Mission in USA/Canada

The Strike Teams Initiative is a bold regional effort from Nazarene Mission Teams to mobilize passionate individuals from across our local congregations and districts to serve critical needs right here in the USA/Canada Region. Think of it as special ops for the Church of the Nazarene—teams that form quickly, deploy strategically, and focus on strengthening our mission where it's needed most across our region.

### Who are Strike Teams?

These aren't long-term planners waiting for next year's calendar. Strike Teams are people who say, "I'm available—and I'm ready to go!" Within just one to two months, they're prepared to assist with urgent needs or strategic projects in USA/Canada. They're flexible, fast, and focused, always responding where help is needed most in our own backyard.

### Who is this for?

- Churches without the resources to launch traditional mission trips
- Individuals ready to serve now, not later
- Districts needing short-term support or rapid response teams

### Ready to Learn More?

If you're interested in exploring how Strike Teams can strengthen mission engagement in your district, contact **Camilo Gonzalez** at [cgonzalez@usacanadaregion.org](mailto:cgonzalez@usacanadaregion.org).

## Summer Mission Internships: A Life-Changing Opportunity for Young Adults

### Global Missions Needs Your Help

We're excited to announce the launch of Mission Internships through Mission Mobilization—a 10-week summer missions experience for young adults serving right here in the USA/Canada Region. This isn't your typical summer mission trip. It's a comprehensive program that combines in-depth pre-deployment training, hands-on ministry experience, and ongoing mentorship. We need NMI's help spreading the word to young adults on your district who are exploring how God is calling them.

### What Makes This Special?

This internship goes deep. Participants receive spiritual formation, engage in real ministry, and are mentored throughout the experience. It's designed to shape not just their summer, but their lifetime of service—teaching them to understand culture deeply, build authentic relationships across differences, and recognize God's image in all people.

### How You Can Help:

- **Spread the word** with young adults in your district who are exploring God's calling
- **Pray** for these future missionaries as they prepare for this life-changing experience

See the attached flyer for full details and application information.
