

Illinois District CCK storage

Currently we do not have any plans for long-term storage.

- Due to some contents expiring, and
- We are currently able to use 'Convoy of Hope' who works with NCM and have shown to be able to pick up and use these resources on short-term notification.
- In addition to the recommended funding to NCM for each box, we ask that \$5 per box be sent to the district NMI to help cover the cost of preparative wrapping on skids so Convoy can take the shipment.

Often during the Spring and Fall Zone Missions Rallies, there often are opportunities to gather CCK/SPP boxes for shipment. Please contact your zone NMI Coordinator to pre-arrange for this.
