

# *NMI Impact Creativity Contest*

The deadline to submit videos for the NMI Impact Creativity Contest is in June, and that is only 4 months away!

We encourage each church to choose ONE example of ONE Area of Impact and make a ONE-minute video that shows the world what they did. Remember to make it VISUAL. A video of someone telling what their church did won't be effective because the videos won't be translated.

Don't be shy as you consider your project. This isn't the time to hold back! We genuinely hope EVERY Nazarene church on the planet – no matter their location, language, size, or financial status – will submit a video.

Submit your video to the district NMI President by June 1.

The winning videos from each region will be featured during the 2027 Global NMI Convention, helping us celebrate the beauty and diversity of our churches around the world.
